

Energy Saving Week 2024

Schools' challenge - class results

Throughout Energy Saving Week please encourage your students to complete the five energy saving activities below. These everyday tasks can help educate your students on saving money and energy at home.

At the end of the week, parents/guardians/carers will provide you with their child's energy saving activity results. Use this sheet to collate the class results for each task. Don't forget to ensure all classes are included in the school's final total.

Class _____

Number of pupils

Day 1

Reduce your shower time by one minute

Day 2

Turn the tap off when brushing your teeth

Day 3

Unplug any electrical items you're not using

Day 4

Ask an adult to turn down the thermostat by 1 degree for 5 days

Day 5

Turn the lights off when you leave the room
